

**Backyard Bounty: Grow the Most Food All Year Round**  
**Bamfield, BC April 7, 2015**  
**Linda Gilkeson**

Learn how gardeners in the mild climate of the West Coast enjoy fresh vegetables and fruit all year.

Topics covered including soil preparation and fertility; choosing what to grow; intensive planting methods; year-round planting

schedules; protecting crops for winter; and growing warmth loving crops in greenhouses and tunnels. Also covered will be organic methods for preventing and controlling common pests, diseases and weeds. The emphasis throughout will be on simple ways to grow the greatest amount of delicious, organic food—for the least amount of effort!

Based on Linda's best-selling book: *Backyard Bounty: The Complete Year-Round Guide to Organic Gardening in the Pacific Northwest*. Bring your copy if you have one; copies will also be available at the workshop (\$25)
